About

I am an engineering student (ESIEA, double degree with CentraleSupélec) and have been the technical lead of a SaaS in production. I am looking for an end-of-studies internship in software: architecture, governance, microservices, distributed systems, cloud, DevOps.

Skills

Languages	JavaScript, TypeScript, Java, Python, C
Frameworks	Next.js, Vue.js, Java Spring, Django
DevOps & Cloud	Git, GitHub Actions, CI/CD, Google Cloud
Spoken languages	French (native), English (TOEIC 970: C1)

Professional Experience

NerionSoft - Full-Stack Developer Sep. 2025 - Present

- Technical lead of Hestia, a SaaS booking engine for independent hotels
- TypeScript, Next.js, PostgreSQL; hexagonal architecture; CI/CD with GitHub Actions, Neon + Vercel previews
- Integration of the Apaleo PMS (OAuth2, webhooks) and Apaleo Pay payments; app certified on the Apaleo Store

Projects

Undrive - 4th-year project Sep. 2025 - Feb. 2026

- Gamified mobile app encouraging public transport use through a rewards system
- Designed the CI/CD infrastructure with Terraform on GCP, Cloud Run deployment and GitHub workflow management
- Developed the Django backend API, integrated Python microservices and a PostgreSQL + PostGIS database

StockElec - Silver medal (2nd-year project) 2023 - 2024

- Inventory management web app for ESIEA's electronics lab
- Agile development, including gathering the client's requirements
- Frontend: Quasar (Vue.js), Tailwind CSS, interactive analytics dashboard
- Backend: RESTful API in Java Spring, MySQL database, all containerised with Docker

Education

CentraleSupélec **CentraleSupélec Double Degree - Software Science track** 2026 - 2027

- Software engineering: advanced programming (C++), testing, static analysis, continuous integration, agile methods
- Systems: operating systems, concurrent and distributed systems, distributed algorithms and models
- Foundations: advanced algorithms, logic and deductive systems, semantics and language processing

esiea **ESIEA Engineering Degree (MSc) - Software Engineering major** Expected 2027

- Systems (C), mobile (Flutter) and full-stack (Vue.js, Spring) development: SOLID, application design, architecture
- Systems administration: virtualisation, containerisation
- Data Science & AI: SQL/NoSQL, data analysis, Machine Learning, AI

UQAC **UQAC Double Degree - Bachelor's in Computer Science** 2024 - 2025

- Cybersecurity: vulnerability detection (network/web), attack graphs (Nmap, Nessus), forensics
- Big Data and AI: multivariate linear regression, decision trees, clustering, neural networks (MLP, CNN)
